**Paradigm Liaison Services, LLC Acquires SafetyComm Solutions:
Expands Service Offerings to Oil and Gas Industry**

July 20, 2007 (Wichita, KS) – Paradigm Liaison Services, LLC is pleased to announce its agreement in principle to acquire the assets of SafetyComm Solutions.

An established industry leader, Paradigm[®] is an innovator in public awareness direct mail programs. Well-versed in RP 1162 requirements, Paradigm[®] provides turnkey public awareness programs to pipeline, transmission, gathering and distribution operators nationwide.

Indianapolis-based SafetyComm Solutions is a complimentary service provider, offering Safety Awareness Training Programs to the oil and gas industry. Different from Paradigm[®], SafetyComm services are in the form of face-to-face professional safety awareness training. Offered across the country year-round, SafetyComm pipeline safety awareness training programs target emergency responders, public officials, contractors and excavators.

“The acquisition of SafetyComm is a natural next step in the growth of Paradigm[®] as we strive to better service the oil and gas industry,” said Mark G. Allen, President of Paradigm[®]. “We are thrilled to be able to better support our clients’ public awareness efforts by bringing yet another service offering under our roof. With the creation of Paradigm Liaison Services, we now have another value-added program to offer pipeline operators in hopes of enhancing program continuity, execution and most of all effectiveness,” continued Allen.

Currently serving more than 500 pipeline, transmission, gathering and distribution operators nationwide, Paradigm[®] has been providing public awareness direct mail programs for the oil and gas industry since 2000. Based in Wichita, KS, the company also has locations in Houston, TX and Washington, DC. <www.pdigm.com>
